

WASHINGTON NEWSLETTER

By Sen. George Smathers

WASHINGTON — Former Mayor Randall Chase of Sanford wrote me the other day to cite an off-heard complaint. Taxpayers, although, he claimed, a 10% income tax cut, are not finding the expected hike in take-home pay, he said, adding: "It is my personal thinking that the most democratic and fair thing to do would be to raise the personal exemptions so as to amount to at least a 10% tax reduction in the lower brackets. That would give every one in the country the same reduction."

This is a proposal of such merit I have asked both House and Senate Committees to consider it in writing a revised Revenue Code this year.

AIR ACADEMY: Reports of House hearings on the proposal to create an air academy, have prompted a number of letters urging this academy to be located in Florida. I introduced a bill last year to locate such an academy in Florida and the rest of the delegation are joining in actively seeking a favorable consideration.

NEWS NOTES OFF THE CUFF: USPHS grants, Alachua Health Center (\$77,000); Bradford Hospital (\$227,000); St. Joe Health Center (\$26,000); Seminole Memorial Hospital (\$270,000). . . . Our delegation in the Congress and the State Democratic Committee is joining National Democratic Committee as hosts to regional dinner party at Ft. Meade, Feb. 27, March 6. . . . Senator Holland, Congressman Lantaff and I have introduced a bill to compel federal agents to testify in gambling cases in state courts.

LETTER OF THE WEEK: "Congratulations to you on your getting action on your idea of awarding war prisoners who refused to go Communist. Now that the Marines have seen the light, I hope other services will follow suit. Ben Henke, Editor-in-Chief, Three-Star Extra (NBC)."

DEMOCRATIC POLICY: What Senate Democratic Leader Lyndon Johnson says should be good enough for anyone: "Democrats will not support any measures just because it was first advanced by a Democrat, will not oppose any measure just because it was first advanced by a Republican. We are interested in the parent rather than the child."

Dog Drive Growls On

The City of Pahokee's "Operation Canine," to rid the city of unlicensed and stray dogs, was on at full tilt this week, with one more week to go.

A second opportunity for dogs to get their anti-rabies inoculations will be given local residents Saturday, when shots will be given between 10 and 11 a.m. at City Hall.

Inoculations cost \$1.50 The inoculations cost \$1.50 per dog, and no dog tags (\$1 for males, \$2 for females) will be sold unless inoculation papers or tags are presented at the City Clerk's office by dog-owners.

Last Saturday, 48 dogs were inoculated. Sixty-four tags have been sold since Jan. 1. City Clerk Dorothy Graham reported.

Meanwhile, city officials reiterated their warning that unlicensed and stray dogs will be picked up and taken to the City Pound and then sent to the Palm Beach to the Animal Rescue League.

"Bail" Costs The cost of "bailing out" a dog from the pound is \$5, plus \$2 per day board. Therefore, the city emphasizes, it is cheaper to have the dog inoculated and licensed than wait until the animal is picked up and pay "bail."

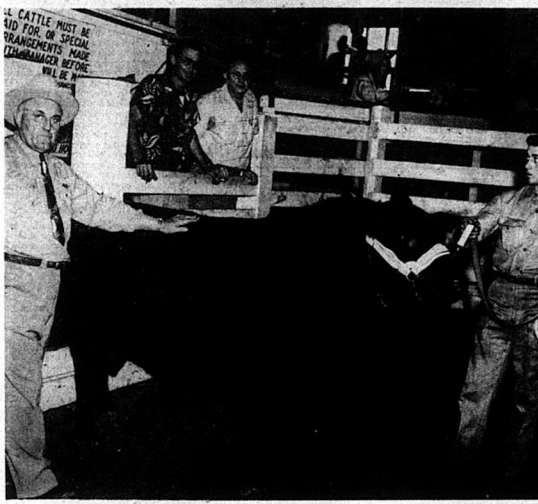

BUSINESS CLASSES IF

Palm Beach County Vocational School, in cooperation with Clyde A. Canipe, principal of Pahokee high school, is planning to offer evening instruction in typing, bookkeeping, and shorthand, according to Kenneth F. Johnson, director of vocational education for the county.

These courses are tentatively scheduled to start in February. If that classes may be set up according to the demands of the community, persons interested in this instruction are asked to call the school, phone 3801, name, address, and the course of instruction desired may be reported by telephone.

This instruction is part of the school board's vocational education program and is for adults 16 years of age or over who are not regularly enrolled in high school. Tuition will be charged for these courses, but there is a small registration fee. There must have a minimum enrollment of 15, Johnson said.

SIDEWALK GRADES CHANGED DESPITE ENGINEER PROTEST

City Council met in two sessions within four days in the past week, tinkered with City Engineer John T. Pickett's new sidewalk plans, and announced after a Monday night meeting that money would be saved on their changes.

At a session Friday morning, after being warned by the city engineer that he would take no responsibility for the changes, Council members

James H. Wilkinson, Jr., R. B. Simonson, Loren Meredith, F. S. Parrish, and Louis Minetti voted unanimously to lower the new sidewalk grade six inches.

The grade-lowering — leaving the street grades the same on Annona, Banyan, and Cypress Aves. — was decided on the basis of a half-dozen properties in the three-street area being considerably lower than the grades planned.

Pickett Warns "Pickett warned Council that lowering the grade where properties are high enough for the original grades to stand would result in sidewalks full of water during the rainy season."

"When that time comes," he asserted, "I am going to have an advertisement printed that says 'They did it—I didn't.'"

At the same session, Council instructed City Attorney Ralph Johnson to draw up an ordinance regarding public utilities putting transmission facilities on private property.

Monday night, Council discussed the probable results of lowering the sidewalk grade, making considerable fill already contracted for unnecessary.

They conferred with Contractor Sam McKinstry, sr., and worked out a plan agreeable to all by which, according to Councilman Johnson, "money will actually be saved."

Audit Shows City Is Fiscally Sound

The City of Pahokee audit for fiscal 1952-53, ending Sept. 30 of last year, was an encouraging sight to Council Monday night and probably will have the same effect on taxpayers.

The official auditor, William B. Rhodes, CPA of Belle Glade, reported (1) The Water Works is out of the red and into the black, and

(2) The city spent more money but took in more revenue and is in the black.

The Water Works, under the supervision of R. J. Schroder, showed a net revenue this fiscal year of \$2,576.07, while in 1951-52 it was into red ink exactly \$1,529.81.

The city spent \$119,762.78 for fiscal '52-'53, compared with \$105,427.41 the previous year. This fiscal year city revenues totaled \$124,161.22, as compared to \$115,525, \$120,432.91.

Sizeable Expenditures Despite sizeable expenditures for sidewalk specifications, drainage work, bond interest, and street and sidewalk maintenance, the budget held its own. Biggest single items of revenue for the city were tax assessments of \$34,247.85; cash on hand, \$475.89; total assets, \$17,960.98; total assets, \$50,069.92; fixed assets, \$278,765; liabilities, \$202,785.

(See City expenditures, revenues, and the Water Works statement in detail on Page 4.)

During the first of this session, he introduced a resolution to the House a joint resolution calling for a constitutional amendment granting the right to vote to 18-year-olds.

Rep. Rogers will be requiring a record vote (yes or no) on all appropriations.

Rogers explained that during the coming session he favors amending the tax laws so that all expenses for child care of working mothers, and medical and dental expenses can be deducted from income tax returns; also for amending the Social Security law so that a beneficiary can be paid his benefits if he is unable to work because of injury or disability.

He stated that his belief is that foreign economic aid to European countries should be discontinued. Rogers is one of the ranking members of the important House Interstate and Foreign Commerce Committee.

"SONNY" BROWN IS IMPROVING AFTER CRASH

C. M. "Sonny" Brown, former Pahokee policeman who suffered a leg and body injuries in an automobile crash at Belle Glade Tuesday, is "getting along fine," Everglades Memorial Hospital reported Thursday.

The car Brown was driving collided with a tractor-trailer from Kentucky when the driver failed to yield the right of way as he turned left into Main St. at Belle Glade. Driver of the truck was charged with reckless driving by failing to yield right-of-way.

Communism, Stars Rotary Topic

City Engineer John T. Pickett spoke at the Pahokee Rotary Club last week. Introduced by Thaddeus Whidden, he based his talk on disproving the common fear that communism denies the existence of God, by facts contained in the 14th verse of first chapter of Genesis.

He said that he believed the Divine plan for man intended that he know where he is on the earth, and where he is going while here. He illustrated his talk with various principles of astronomy.

He cited Guy McClure of Thomas, Okla.; brother of President Oscar McClure; Ken Commander of Atlanta, Ga.; Boling Jones, III, of Thomasville, Ga.; Mason Forshee, Sarasota; Belle Glade Rotarians Walter Hooker and Hugh Brattle; Lewis E. M. Pahokee, and student Ted Echols.

MOLES

A mole is a growth or tumor on the surface of the skin. Its distinctive characteristic is the fact that the cells of the growth collect pigment like that which gives color to the hair and skin. The excess gives the mole its familiar color which may vary from pale tan to jet black or blue-black and all tints between.

The average person has five or ten moles. Some are flush with the skin surface, some are raised and warty, some have stalks. The vast majority are benign, harmless and devoid of any danger. Most need no treatment except for cosmetic reasons but certain kinds are dangerous. One that increases in size, bleeds readily, becomes irritated or inflamed should be treated at once.

Only a few moles turn into one of the worst kinds of cancer, highly malignant, very invasive, promptly fatal. Therein lies the danger. After the changes of cancer have occurred, radical surgery will become necessary and even then surgery may not be of much benefit. This type cancer may not respond to x-ray or radiation.

Cancer seldom originates in a mole that is flush with the skin surface. It is brown or has hair that grows from it. On the other hand, the black mole, particularly blue-black, green-black or red, is prone to become malignant. And for some unknown reason, moles on the foot, particularly the sole, are quite dangerous and should be removed. It is also a good idea to remove moles in places exposed to constant irritation or chafing, such as along the collar line, in the armpits, on the face, on the lips of a pipe smoker, along the belt line or in the arm pit.

Removal of a mole is not a difficult procedure for the physician. He may do it surgically under a local anesthetic in his office, with the electric needle or by the use of x-ray. Removal is usually quick, painless and in ordinary cases will not involve time lost from work.

The important thing is to consult the physician as soon as there is suspicion about a mole, because the time to remove one is before it becomes cancerous and not after.

There are 43 peaks in the Canadian Rockies 11,000 feet or over, says the National Geographic Society. Mount Robson, 12,972 feet, is the highest.

From where I sit... by Joe Marsh

Open Even When He's Closed

Must have been daydreaming on my way to a meeting down in Centerville the other night. My car ran dry before I thought to look at the gas gauge, but I managed to coast into a gas station and found it closed!

Well, I thought my plans were ruined for sure until I noticed a gasoline can with a sign: "This is emergency gas. Just help yourself and leave the can with \$1.00. Thanks!"

Got started, made the meeting on time, and had enough gas to get back home again—thanks to a trusting friend.

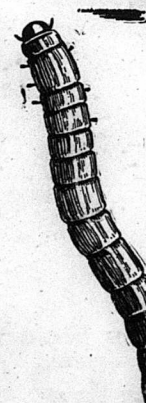

From where I sit, folks who trust their neighbors make the world a better place to live in. For instance, letting a friend express his personal preferences, is one way of trusting your neighbor. Sometimes I prefer a temperate glass of beer in the evening but I'll always ask what you'd like before I pour yours.

TIPS FOR WIREWORM CONTROL

Aldrin

CHEMICAL STABILITY — Aldrin remains stable regardless of the pH of the soil... holds its stability when mixed with fertilizer.

POWERFUL KILLING ACTION — All-season soil pest control with just one application.

LOW COST — Low dosages mean low cost per acre... aldrin more than pays for itself in greater yields and improved quality of crops.

EXPERIENCE — Aldrin has been widely used in Florida as a soil insecticide on many crops and has proved to be the most effective control of wireworms and other soil insects.

DRIVER TESTS TOMORROW

TALLAHASSEE—The 12 best drivers from Florida schools having driver education programs, including Jimmy Schoepel, Pahokee, will be picked at four district elimination contests in the state Saturday.

The winners in the district contests at Tallahassee, Orlando, Sarasota and Ft. Lauderdale, will compete at the state-wide event in Tampa at the Florida Fair on Feb. 8-9 and the grand champion driver will get a 1954 Pontiac sedan, given by Florida Pontiac dealers.

This is the first statewide good driver contest ever held in Florida and it is sponsored by the Florida Highway Patrol with the official sanction of the State Department of Education.

Drivers Chosen

Drivers who will take part in the elimination next Saturday have already been chosen in the 60 Florida high schools who have accredited driver education programs.

In district eliminations and at the statewide contest the requirements will be the same. Drivers will be judged both in the classroom on written tests and in actual on-the-road driving.

The Tallahassee elimination will be at Leon, the one in Orlando will be at the fair grounds, the Sarasota elimination will be handled by Trooper W. B. Oliver, and the Ft. Lauderdale contest, in which Schoepel will participate will be held at the city auditorium with Safety Trooper Howell Gillett in charge.

Dear Friends,
You asked for it, and we got it for you!
Heptachlor — for control of wireworms on sweet corn, and other soil insects. Heptachlor is a wonderful insecticide, recommended by your State for wireworm control. It's the lowest cost insecticide available, is easy to apply, safe to handle. Heptachlor protects your crops all season long. That's why we're writing to you. Your neighbors are ordering Heptachlor, and we know you'll want some too. Come in, won't you, and we'll talk about it. We think you'll agree that Heptachlor is the answer to the wireworm problem.

Sincerely yours,
